Create audiences based on customer information that you already have in ServiceTitan—like a home maintenance program, allergy reminders, change filters and get ready for the heat campaigns. This information automatically updates in real-time so you can truly 'set and forget' your email campaigns!

DRIVE SIGNIFICANTLY MORE REVENUE

- Hyper targeted equates to higher email open rates and more calls rolling in, the more targeted audiences and campaigns, the bigger ROI you can expect!

KNOW EXACTLY HOW YOUR EMAILS ARE PERFORMING

- Go beyond just knowing which emails are being opened. With ServiceTitan Marketing Pro, you can see exactly which emails are driving revenue to your business. Track real ROI with both email performance and revenue attribution.
