

SAMSUNG

Innovative Residential / Light Commercial / Commercial Products

Why Become A Samsung Dealer?

There are **3 levels** in the Preferred Dealer program with increasing rewards based on participation.

To view Samsung Rewards, go to SamsungHVAC.com/rewards. Enter [demo](#) as the PIN and press login to see the rewards catalog.

Dealer

Once you complete the required training and register your first** system, you will be listed on the Samsung HVAC dealer locator on SamsungHVAC.com following the Preferred and Preferred Plus Dealers in your area along with all Dealer benefits. See detailed benefits on next page.

Preferred Dealer

Once you register 5** installed systems and complete the required training, you will be listed on the Samsung HVAC dealer locator on SamsungHVAC.com following the Preferred Plus Dealers in your area along with Dealer and Preferred Dealer benefits. See detailed benefits on next page.

Preferred *Plus* Dealer

Once you register 25** installed systems and complete the required training, you will have priority listing on the Samsung HVAC dealer locator on SamsungHVAC.com within a 100 mile radius along with Dealer, Preferred Dealer, and Preferred Plus Dealer benefits. See detailed benefits on next page.

The Samsung HVAC Mobile App for installers and technicians

Our mobile app provides quick access to a wide range of tools and support right on your device. For example, you can quickly retrieve Samsung HVAC system information while installing or servicing a unit by simply scanning the product barcode.

Benefits

A detailed look at more rewards you can receive based on your program level:

WindFree™ 2.0

WindFree™ 2.0e

Features:

Total Control

WindFree™ 2.0 and WindFree™ 2.0e units come with built-in Wi-Fi, allowing users to remotely regulate temperature, adjust settings, receive real-time updates about system performance and energy usage, as well as troubleshoot solutions when a repair is needed. Compatible with SmartThings app† and Bixby 2.0*.

Control Features

- On/Off
- Fan Speed
- Temperature Setting
- Wind Direction
- WindFree™ Mode
- Schedule
- Good Sleep Mode
- Options:
 - 2-Step
 - Fast
 - Comfort
 - Quiet
 - Single User

SmartThings Features

Scenes – Control multiple devices with a single tap or voice command through the SmartThings app. A Scene can be used as a part of an Automation.

Automations – Control your devices without manual intervention. Automations can be to run at certain times on certain days of the week or to trigger when another device reports a certain condition (such as detecting motion or a door or window opening).

Energy Monitoring – View daily, weekly, and monthly energy consumption for your A/C system (for reference use only and not revenue grade).

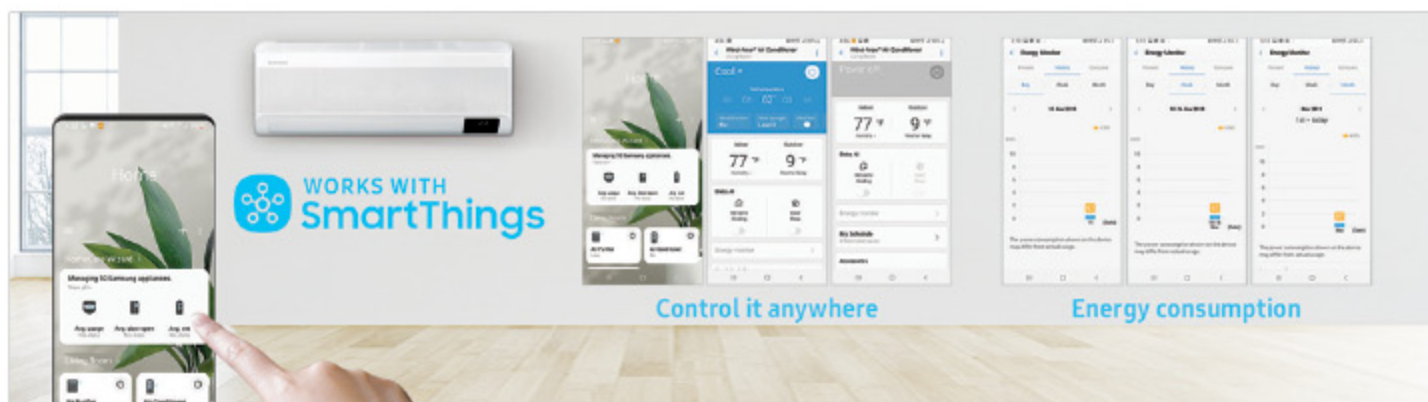

Geofencing – Detects when the smartphone you're carrying comes in and out of the range you set up on the map, and then triggers the different actions you've set to happen (such as turning your A/C off while you're away, or on when you arrive home).

Bixby

Bixby is Samsung's scalable AI platform, built to support multiple devices in your life in a more conversational, more personal, and more useful way.

To learn more, visit [Samsung.com/bixby](https://www.samsung.com/bixby)

†Available for download on the Google™ Play store and App Store®. A network connection is required. Samsung application account is necessary.

*Bixby voice recognizes English (U.S.), Mandarin Chinese and Korean. Not all accents, dialects and expressions are recognized. The list of features that can be controlled by voice commands via Bixby will continue to expand. Mobile functionality compatible with Samsung Galaxy 8 series or higher with Bixby function. Samsung account login and data network (Wi-Fi or internet connection) required to fully operate Bixby features.

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers). © 2022 Samsung HVAC

SAMSUNG

Light Commercial (CAC) & Multi-Zone (FJM)

Samsung's new single zone Light Commercial (CAC) and multi-zone Free Joint Multi (FJM) product lines now offer more indoor unit options with a wider range of capacities for a variety of heating and cooling needs.

Most indoor unit models are compatible with both CAC and FJM outdoor units to simplify Samsung's product portfolio and reduce the overall number of SKUs to manage.
